

Quick Service

TRAVELERS & GENOA LEADS

SERVICE AT REGULAR INTERVALS

Service is required after storage, when cars have too much friction, or if balls seem to be sliding instead of rolling. Flush with fresh water and detergent, move cars back and forth to circulate the balls, and follow with high-pressure water. Clean track grooves and then use a single drop of McLube OneDrop™ Ball Bearing Conditioner in each ball race.

Service items:

- Earth-friendly detergent
- McLube OneDrop™
- Water hose

Inspect carefully for:

- **Cracked, corroded, or elongated shackles:** Replace immediately.
- **Loose car fasteners:** Check all screws and cotter pins.
- **Loose track or end control screws:** If possible check underneath the deck to inspect for stress cracking and other damage. Pay careful attention to high-beam track on cabintop.
- **Missing bearings:** See chart on back for replacement ball bearings.
- **Bent wire clip (CB only):** Check that the ball retaining wire clip is not visibly damaged. See chart on back

for replacement wire clips. **Replacement CB Cars will not roll on older track.** CB cars require a groove in the track for the car's ball retaining wire.

Find specific information at www.harken.com/manuals.

PART IDENTIFICATION

Method

1. If you only need to determine system size, simply measure the top of the track and use the Car Body and Track Widths chart below.

2. To identify a particular slider or ball bearing car, measure the car body width (not including control blocks) and then use the lengths in the Car Identification chart on back to find specific cars.

Groove for retaining clip

CB (captive bearing) car

Non-CB track

Non-CB car with endcaps

Car Body and Track Widths

System size	Car body		Track	
	in	mm	in	mm
Micro CB	1 ⁹ / ₁₆	40	1/2	13
Small Boat CB	2 ¹ / ₄	57	7/8	22
Small Boat Non-CB	2 ³ / ₁₆	56	7/8	22
Midrange CB	2 ³ / ₄	70	1 ¹ / ₁₆	27
Midrange Non-CB	2 ³ / ₄	70	1 ¹ / ₁₆	27
Big Boat CB	3 ⁹ / ₁₆	85	1 ¹ / ₄	32
Big Boat Non-CB	3 ⁵ / ₁₆	84	1 ¹ / ₄	32

SERVICEABILITY

Dealer Replaceable Parts

All track components
Ball bearings, toggles, car controls, and endcaps for non-CB cars (see chart)
Ball loaders for non-CB cars (see chart)

Traveler Rebuild Kits

Use for older non-CB ball bearing cars. Kit contains new endcaps, screws, Torlon ball bearings, ball loader, blue Loctite®, and instructions.

Part No.	Description	Torlon Ball Quantity
HSB501	Small Boat	64
HMR99	Midrange	60
HBB197	Big Boat	60

Parts included

Endcap Sets (No Balls)

Use for older non-CB ball bearing cars

System size	Description	Part No.
Small Boat	Plastic	HSB78
Midrange	Plastic	HMR3
Midrange	Aluminum	HC1653
Big Boat	Plastic	HBB48
Big Boat	Aluminum	HC289

Parts included

Ball Loaders (No Balls)

Use for older non-CB ball bearing cars

System size	Description	Part No.
Small Boat	Ball loader	HSB116
Midrange	Ball loader	HMR2
Big Boat	Ball loader	HBB1

CAR IDENTIFICATION & BALL REPLACEMENT

Use chart to find ball bearing replacements if you know either the part number or certain measurements. The Car Length column can be used to identify different cars within a particular size range.
